AMERICA FOR AMERICANS

McKINLEY AND WILSON ABROAD.

In 1890 William McKinley was burned in effigy in the English manufacturing city of Sheffield; but in 1904 William D. Wilson was elected and elected in London because he is the author of a Free-trade Tariff Bill. These are significant facts.

The Hon. Rufus N. Ramsey, an all-wood-and-yard-and-a-half-mile Democrat late State Treasurer of Illinois, still only a trifle over \$400,000 of the people's money. What an "honorable" set of fellows these Democrats are, and how "honestly" and "economically" they do administer the affairs of the taxpayer.

Say Fall Mail Gazette of London says: "There seems no hope for Hawaii as a Protectorate." That's just what President Harrison thought, and that's just what he established. But it remained for the great and only GOWDER to upset existing conditions and create a revolution and entail bloodshed in Honolulu. HARRISON was a statesman; CLEVELAND is a chump.

BUSINESS BOOMING!

SOME SEQUELS TO THE LATE POLITICAL REACTION.

Before the election the London assured that Republican success meant a restoration of confidence, the opening of American factories and workshops, the return of labor to its wonted channels, production and steady employment for American workmen, and an era of renewed prosperity all along the line. That the hopes held out by the London were not false ones is being fully demonstrated. Below are a few evidences of the business revival that trends on the heels of the great Republican victory.

Niles, O.—After six months idleness the mammoth tin plant of the Falcon Iron and Nail Company of this city will resume operations next week.

An eight week strike has been ended at the works of the British Hosiery Company at Thornton. It is the strikers having accepted a ten per cent reduction, together with a guarantee of steady employment until June.

The Spectacles sugar refinery at Philadelphia, which has been idle for several weeks, resumed operations on full time this week. The refinery employs 2,000 hands. The Franklin refinery, which has been running on half time since commenced running on full time Monday.

Elwood, Ind.—The American Tinplate factory started up its new addition of four mills this morning, and 300 new men were put to work. Nine mills are now in operation and a tenth one is building.

Since last week there have been several spokes added to the wheel of industrial progress in this city, and, taken all together, the outlook is none brighter in all the industries. The tinplate factory is now in the hands of a new company, and articles of incorporation were filed this week, the capital stock being \$30,000. The factory starts up again Monday, and 150 men will be put to work. The new management is a strong one, and insures a successful future for the industry.

Since last week Chicago and Cincinnati capitalists, who are interested in the manufacture of tinplate have decided to locate a five mill plant between this city and Franklin, on the Quick City land syndicate's property. They made the syndicate the proposition to erect the plant, which will employ 300 men, provide a subsidy of \$25,000 be raised for them, and the amount has almost been raised, and every detail of the deal will be closed up in a few days. The company intends to have the plant in operation by August, and will give employment to several hundred men.

BOND BILLS.

In Accordance With Cleveland's Ideas, Introduced.

In the Senate by Senator Vilas, and in the House by Mr. Wilson.

Senator Sherman reintroduced his bill as an Amendment to Senator Jones' Free Coinage Bill—Agreement Between California and the Money Lenders.

WASHINGTON, Feb. 11.—Financial legislation cropped out in both houses Wednesday. Chairman Wilson introduced a bill to carry into effect the recommendations of the president by issuing two percent bonds. He lodged with the report a copy of Secretary Carlisle's contract with the representatives of London bankers. A vote will be taken Thursday next.

Senator Vilas introduced a similar bill in the senate, which went to the calendar by a shrewd trick and is ready to be called up at any time. His bill is entitled "A bill to use the United States \$16,170,770."

Senator Sherman introduced his bill as an amendment to Senator Jones' free coinage bill. It provides for a 3 per cent bond, payable after five years, and subject to redemption by treasury certificates to furnish funds for running expenses of the government.

Senator Aldrich, Wednesday afternoon, introduced a resolution calling upon the secretary of the treasury to transmit to the senate the terms of the contract with the gold syndicate. Two hours later Chairman Wilson, after a consultation with the president, reported a gold bond bill, which coincides with the president's recommendations, and with his report he gave to the press a copy of the contract upon which the secretary, Tuesday, placed the injunction of secrecy.

The bond resolution was adopted by the ways and means committee by a vote of 8 to 5, as follows: Vilas—Wilson, Turner, Tamm, Montgomery, Stevens, Cushman, Reed and Payne.

Say—McMillin, Whiting, Wheeler, Bryan and Hopkins. Mr. Grosvenor did not vote and Mr. Brown was absent. The resolution will be brought up in the house Thursday under a special order of the committee on rules, and it will be voted on Tuesday night. It will give rise to a debate of the most extraordinary and sensational character. Representatives of all parties seem to be interested by the terms of the contract made public Wednesday afternoon. They especially resent that clause of the contract which gives to the syndicate the option to call in all bonds issued by the government prior to October, 1905. This, as Mr. Reed said Wednesday, is a clause which will be the undoing of the contract, which tells its own story.

Members regard the agreement of the syndicate to use its influence to prevent the execution of their contract as an admission that hitherto the syndicate has been intent on causing the drain of gold upon the treasury.

It was pointed out that this agreement would continue until the close of the contract. In other words, the syndicate will not send gold out of the country until it has deposited in the treasury \$10,000,000, after which the drain can continue as of old.

All this will be said on the floor of the house Thursday, and no doubt will be given. Mr. Wilson will champion the president's cause and show that there was no alternative left him but to save the national credit.

Much will be made out of the fact that the witness to the transaction is Francis Lynde Stetson, the former law partner of the president, who has also been to the attorney of the parties to the syndicate.

Removal of the Jackson county Courthouse.

INDIANAPOLIS, Ind., Feb. 14.—The house judiciary committee submitted two reports on the subject of the removal of the Jackson county courthouse to Seymour. The majority report, being adverse and the minority report being favorable. The division is narrow one. The subject was recommended to the judiciary committee to await final action by the senate.

Smaller Skinstrapping.

INDIANAPOLIS, Ind., Feb. 14.—The recovery of little Freda Muhl is now assured. Several months ago she was frightfully burned, and the only hope for her was through ingrafting 250 square inches of skin. Four hundred persons volunteered to permit the removal of a bit of skin from their body to be transplanted. The work is now about completed, and recovery is assured.

A Copper Solution.

MEMPHIS, Tenn., Feb. 14.—Thomas Ant, a German, once established in a prosperous copper business in St. Louis, came to Memphis two weeks ago and began drinking heavily. He stopped at the Hotel (Hotel) Howard for a night, and Tuesday night he went to his home, stripped naked and swallowed some morphine. Wednesday morning he was found by the motorman in a room, and the motorman called the police. He was taken to the hospital and died.

DEATH PENALTY.

Wanted by a Congressman For Money Speculators Who Corner Currency.

WASHINGTON, Feb. 14.—A bill prescribing an easy way to obviate the treasury difficulties, introduced in the house on February 11, has quite escaped the vigilance of the press representatives. It was introduced by Mr. Hudson, of Kansas, and is interesting as involving a primitive feature which annals purely of the Chinese method of forcing obedience to civil law.

The measure provides as follows: That if any person or persons shall buy up, collect or get together a large amount of treasury notes, treasury greenbacks, or other paper issued under act of congress, for the purpose of drawing out of the treasury of the United States, or for the purpose of defeating the circulation of said treasury notes, greenbacks or other currency or paper money of the United States, or for the purpose of driving any or all of said treasury notes, greenbacks or other paper money or currency of the United States out of circulation, such person or persons shall be deemed guilty of felony, and shall, on conviction thereof, be imprisoned not less than 10 years, and in addition to such imprisonment may be fined in any sum, not less than \$1,000, nor on conviction of a second or subsequent offense herebefore defined the party so convicted shall be adjudged guilty of treason and shall be punished by death.

LETTER CARRIERS GET JUDGMENT.

WASHINGTON, Feb. 14.—The United States court of claims handed down judgments in 250 suits brought by letter carriers to recover their overwork under the eight-hour law. The amounts ranged from \$20 to \$400. The carriers were employed in New York, Boston, O., Chicago, Springfield, O., Lexington, Ky., and Little Rock, Ark.

MONSTER PETITION.

WASHINGTON, Feb. 14.—The polio temperance petition, containing more than 1,000,000 names, was due in Washington Wednesday, and will be presented to the president after its arrival. After its presentation it will be sent to Queen Victoria, Czar Nicholas and the crowned heads of Europe.

HAIR TO COIN CURRENCY.

WASHINGTON, Feb. 14.—Designs are being prepared at the bureau of engraving and printing for a new issue of five-dollar silver certificates, the drawings having been furnished by Blashfield. On the face of these notes will be such intricate lines and engravings as to deter the most daring from even attempting to counterfeit them.

LOOK-UP FOR SILVER.

WASHINGTON, Feb. 14.—An old law has been discovered upon the statute books. It is a law which the congress which they declare gives them ground to hope that they can bring about the change of silver in an indirect way through the continued sinking fund. The law was passed in 1857, and is section 357 of the revised statutes.
